Introduction

Partout sur la planète, les gouvernements s'attaquent à la crise économique mondiale en investissant massivement dans les infrastructures. Les pays du G20 se sont engagés à investir deux pour cent du PIB dans des mesures de relance, notamment des investissements dans les infrastructures. Au Canada, cela équivaldrait à un plan de relance de plus de 30 milliards de dollars.

Les grands économistes et les dirigeants mondiaux s'accordent pour dire que les infrastructures constituent la pierre angulaire de tout bon plan de relance. Le plan de relance du Canada doit aussi comprendre des investissements additionnels dans les infrastructures.

L'an dernier, les investissements dans les infrastructures municipales ont soutenu l'emploi de 190 000 Canadiens et représenté 2,1 pour cent du PIB national. Chaque milliard de dollars additionnel investi dans les infrastructures crée plus de 11 000 emplois. Chaque dollar injecté dans les infrastructures crée plus d'emplois et stimule davantage l'économie que 2 dollars en réductions de taxes et d'impôts. Contrairement à certaines réductions d'impôts, les investissements dans les infrastructures demeurent dans l'économie canadienne et stimulent la demande pour des produits fabriqués au Canada, notamment par les secteurs manufacturier et forestier durement touchés.

On peut faire rapidement de nouveaux investissements responsables dans les infrastructures pour en tirer des avantages économiques, environnementaux et sociaux à long terme. De tels investissements peuvent apporter à notre économie le stimulant dont elle a besoin sans entraîner un déficit structurel à long terme. Un programme d'infrastructures à court terme amélioré est nécessaire pour démarrer le plan de relance national dès ce printemps.

LES PERTES D'EMPLOI ET LES BESOINS AUGMENTENT

Selon Statistique Canada, plus de 44 000 travailleurs de la construction ont perdu leur emploi en décembre 2008. Pour 2009, la forte baisse des commandes dans le secteur de la construction et de l'ingénierie laisse prévoir des pertes d'emploi encore plus nombreuses. Ces pertes d'emploi réelles et anticipées ont un impact humain sur les ménages touchés et un impact économique sur le gouvernement fédéral, qui verra augmenter les prestations d'assurance-emploi et diminuer les revenus fiscaux. Nous avons la capacité d'investir dans les infrastructures et nous avons besoin des retombées de ces nouveaux investissements.

Les municipalités sont prêtes à créer de l'emploi

Une enquête menée auprès de nos membres au cours des six dernières semaines a permis de dresser une liste de plus de 1 000 projets prêts à être mis en chantier au pays. Et ce n'est que la pointe de l'iceberg. Des municipalités de toutes les régions proposent des projets pour créer de l'emploi. Avec du financement additionnel accordé par le budget 2009, les municipalités pourraient créer plus de 100 000 emplois dès cette année. Le gouvernement doit distribuer rapidement les fonds aux villes et collectivités pour que davantage de tels projets démarrent au printemps. L'échéance approche et le gouvernement fédéral doit commencer à distribuer les fonds dès son budget du 27 janvier.

RECOMMANDATIONS DE LA FCM

1. Faire de la création d'emploi l'objectif principal d'un nouveau programme d'infrastructures à court terme misant sur des projets prêts à être mis en chantier et sur les besoins d'entretien et de remise en état;
2. Utiliser le modèle du Fonds de la taxe sur l'essence (FTE) pour distribuer rapidement les fonds aux municipalités tout en assurant l'imputabilité de leur utilisation;
3. Simplifier les formalités pour accélérer les projets majeurs;
4. Prolonger les programmes de financement des immobilisations du transport collectif et du logement abordable qui viendront bientôt à échéance;
5. Préserver et accélérer le financement destiné aux petites collectivités urbaines, rurales et nordiques.

Projets municipaux prêts à être mis en chantier au Canada en 2009

Le rapport ci-joint présente les détails de plus de 1 000 projets d'infrastructures municipales prêts à être mis en chantier au printemps si le financement est disponible. Ils vont de la simple remise en état à d'importants travaux de construction. Ils proviennent de collectivités de toutes tailles et de toutes les régions du pays.

Il ne s'agit pas d'une liste exhaustive dressée scientifiquement, mais elle démontre clairement les besoins des municipalités et notre capacité à mettre immédiatement au travail les fonds destinés aux infrastructures. Cette liste démontre que les gouvernements municipaux peuvent utiliser ces fonds adéquatement pour créer plus d'une centaine de milliers de nouveaux emplois tout en laissant de précieuses infrastructures en héritage.

Tous les projets de cette liste peuvent être mis en chantier dès que les fonds fédéraux seront disponibles. Avec ces projets et d'autres semblables, les collectivités profiteront de nouveaux emplois, de dépenses locales accrues et d'infrastructures en meilleur état.

DÉFINITION DE « PROJET PRÊT À ÊTRE MIS EN CHANTIER »

Les projets prêts à être mis en chantier sont ceux qui n'apparaissent pas au budget d'investissement d'une municipalité pour 2009, mais qui pourraient être entrepris en 2009 avec des fonds supplémentaires. Dans la plupart des cas, il s'agit de projet de petite ou de moyenne envergure visant la remise en état des infrastructures. Ces projets sont souvent semblables à d'autres existants et ne nécessitent pas une évaluation environnementale. Ils ne requièrent en outre que des études d'ingénierie sommaires.

La liste comporte aussi de nouveaux projets d'envergure. Dans ces cas, les étapes de la conception et des autorisations sont achevées, mais le projet est en attente de la partie de financement finale que doit contribuer un autre ordre de gouvernement.

Vue d'ensemble de projets

	Nbre de projets	Est. des nouveaux emplois créés	Valeur totale
Eau et eaux usées	386	30 915	2 708,998 570 \$
Déchets solides	29	2 640	231 210 000 \$
Transport collectif	144	86 331	7 561 967 000 \$
Bâtiments municipaux (rénovations, améliorations et mises en valeur)	107	7 967	697 891 900 \$
Remise en état de routes	362	23 169	2 038 290,632 \$
Logements sociaux (rénovations, améliorations et mises en valeur)	21	4 929	431 769 296 \$
Projets communautaires, loisirs et autres projets	103	601	52 665 225 \$
Autres	5	154	13 490 000 \$
TOTAL	1 1157	156 706	13 736, 282 623 \$

Transport collectif

L'accélération des investissements dans les infrastructures fait plus que relancer l'économie. Cela permet d'améliorer les routes, les ponts et d'autres infrastructures essentielles à la performance économique et à la protection de l'environnement. Le meilleur exemple en est fourni par les investissements dans le transport collectif. À eux seuls, les retards provoqués par la congestion routière coûtent 3,7 milliards par année à l'économie canadienne. Les réseaux de transport collectif du Canada ont pris de l'âge et il faut en profiter pour adopter des technologies (TLR et autobus articulés) et des carburants (biocarburants, gaz naturel ou hydrogène) plus propres et plus efficaces.

District régional de Thompson-Nicola, Colombie-Britannique

Emplacement : partie sud de l'intérieur de la Colombie-Britannique

Population : 122 286 habitants dans 10 municipalités et 10 régions électorales représentant plusieurs petites collectivités sans personnalité morale

Le District régional de Thompson-Nicola (DRTN) exploite 11 réseaux d'aqueduc et deux réseaux d'égouts. Les responsables signalent que la coûteuse installation des équipements de traitement et de suivi nécessaires au respect de règlements de plus en plus rigoureux impose un fardeau financier aux contribuables du district. Le DRTN est en attente d'une décision du Fonds Chantiers Canada relativement à des demandes portant sur quatre réseaux d'aqueduc et il pourrait entreprendre plusieurs autres projets d'aqueduc et d'égouts en moins de six mois.

Coût des projets d'infrastructures : 31 900 000 \$

Emplois pouvant être créés : 364

Avec l'aide de ses membres, l'Association canadienne du transport urbain a identifié 144 projets de prolongement ou de remise en état du transport collectif prêts à être mis en chantier au pays – pour une possibilité de plus de 86 000 emplois. Les investissements dans le transport collectif ne créent pas des emplois uniquement dans le secteur de la construction, mais aussi dans le secteur manufacturier, chez les constructeurs et réparateurs de voitures, chez les fabricants de pièces et d'équipements de perception et de signalisation. Les nouveaux services de transport collectif créent aussi des emplois durables et de qualité pour leur exploitation.

Le transport collectif étant la principale dépense d'un budget d'immobilisations municipal, il n'est pas étonnant que ce type de projet soit le plus créateur d'emplois. La plupart des projets de cette liste ont franchi l'étape des calculs techniques et des autorisations. Ils n'attendent que l'engagement financier des gouvernements fédéral ou provincial, très souvent dans le cadre du processus du Fonds Chantiers Canada.

Eau et eaux usées

La remise en état des réseaux d'aqueduc et d'égouts est impérative, surtout dans les grandes villes plus vieilles, comme Montréal, où 33 pour cent des conduites d'eau et environ trois pour cent des conduites d'égouts ont atteint la fin de leur vie utile. Les investissements dans les infrastructures d'eau et d'eaux usées du Canada permettront d'améliorer la qualité de l'eau potable, de préserver nos ressources en eau et de créer plus de 30 000 nouveaux emplois. Comme le transport collectif, les projets d'aqueduc et de traitement des eaux usées stimulent le secteur de la construction et l'achat de produits, comme les conduites, robinets, compteurs et autres appareils de mesure.

Routes et ponts

Les déficits d'entretien obéissent à la même logique implacable que les déficits fiscaux. C'est particulièrement vrai dans le cas des routes et des ponts. Ainsi, le coût de réparation d'une fissure dans le pavé peut passer de 1 dollar le mètre linéaire pour la colmater à 15 dollars pour refaire la couche de surface et à 45 dollars pour reconstruire la route, et cela en cinq à 10 ans seulement. Bien que peu rentables politiquement, les investissements dans la remise en état des routes et des ponts permettent d'assurer la pérennité d'actifs valant des milliards de dollars. Les investissements dans la remise en état et la reconstruction de routes et de ponts pourraient créer près de 23 000 emplois en 2009 et combler une partie du déficit des infrastructures municipales estimé à 123 milliards de dollars.

Ville de Regina, Saskatchewan

Emplacement : Centre-Sud de la Saskatchewan

Population : 179 246 habitants

Au sommet de la liste des projets de Regina prêts à être mis en chantier en 2009, on note un important projet d'immobilisations destiné aux services municipaux et de nombreux projets d'aqueduc et d'égouts. Les autres projets prêts à être mis en chantier comprennent la réfection d'un pont, le prolongement du réseau de sentiers urbains, la rénovation structurale, mécanique, électrique et architecturale de l'hôtel de ville et d'autres bâtiments municipaux, ainsi que la reconstruction d'une caserne de pompiers.

Coût total des projets d'infrastructures : 150 150 000 \$

Emplois pouvant être créés : 1 714

Construction, rénovation et modernisation de bâtiments

Les bâtiments municipaux ou administrés par les municipalités – des hôtels de ville aux logements sociaux – prennent de l'âge. La plupart ne disposent pas des technologies récentes et efficaces d'éclairage, de chauffage, de climatisation et de ventilation. La modernisation de ces bâtiments permettrait d'en améliorer la performance énergétique, de réduire les émissions de GES, de créer près de 8 000 emplois et de développer une main-d'œuvre spécialisée en améliorations éconergétiques.

Ville de Kitchener, Ontario

Emplacement : Sud-Ouest de l'Ontario

Population : 204 668 habitants

Les responsables de la Ville de Kitchener estiment qu'avec un financement de 16,9 millions de dollars des gouvernements fédéral et provincial, la municipalité pourrait entreprendre en 2009 des projets de routes, de trottoirs et de gestion des eaux pluviales. Ils jugent que l'injection de fonds permettrait à la Ville de remettre ses infrastructures en état plus rapidement que ne le permettent les budgets actuels.

Coût total des projets d'infrastructures : 16 869 395 \$

Emplois pouvant être créés : 193

Il est impératif d'axer la relance sur la remise en état et la modernisation des bâtiments publics et des logements sociaux – et même sur la construction de nouveaux lorsque c'est approprié. Cela pourrait créer 4 700 nouveaux emplois. Le secteur de la construction résidentielle est celui qui souffrira le plus du ralentissement économique. On prévoit que la baisse des mises en chantier se traduira par la perte de 150 000 emplois en 2009. Environ 20 pour cent de la main-d'œuvre de ce secteur pourrait se retrouver au chômage, augmentant les prestations d'assurance-emploi et réduisant les revenus fiscaux. En outre, comme il est possible de construire des immeubles à logements multiples et des maisons en rangée à meilleur coût en utilisant une structure en bois plutôt qu'en maçonnerie, on pourrait stimuler l'industrie du bois en privilégiant cette technique. Face à une baisse des coûts de la main-d'œuvre et des matériaux et face à la croissance des besoins, il est plus que temps d'augmenter et d'améliorer notre parc de logements.

Infrastructures communautaires et récréatives

L'accélération des investissements dans des projets communautaires et récréatifs – des arénas aux réseaux de sentiers en passant par les parcs et les centres communautaires – pourrait créer plus de 600 nouveaux emplois. Ces équipements contribuent à la qualité de vie de notre pays, ils améliorent la santé et la condition physique et ils favorisent l'inclusion.

Ces investissements ont un impact sur d'innombrables activités, de la construction à la rénovation en passant par la fabrication de matériaux et d'équipements. Il est important de diversifier les projets d'infrastructures afin d'éviter de dépasser la capacité d'un sous-ensemble du secteur de la construction et du bâtiment.

Les 103 projets de ce type ne sont pas inclus dans la liste des projets prêts à être mis en chantier parce que les projets communautaires et récréatifs ne sont, pour le moment, pas admissibles aux investissements fédéraux dans les infrastructures. Cependant, si le plan de relance du gouvernement fédéral avait pour effet de modifier ce critère, les municipalités ont des projets concrets à proposer pour faire travailler les Canadiens.

Municipalité de Saint-Pacôme, Québec

Emplacement : rive sud du Saint-Laurent, à l'est de la Ville de Québec

Population : 1 685 habitants

La municipalité de Saint-Pacôme est prête à réaliser en 2009 plusieurs projets d'infrastructures si elle obtient une aide financière du gouvernement fédéral. Les initiatives comprennent la réfection d'un pont, la remise en état de plusieurs routes, un projet d'eau et d'eaux usées, la reconstruction d'une passerelle et l'aménagement d'équipements récréatifs comme un sentier, une piste cyclable et des pistes pour les motoneiges et les véhicules tout-terrain.

Coût total des projets d'infrastructures : 5 750 000 \$

Emplois pouvant être créés : 66

• • •

Ville de Bridgewater, Nouvelle-Écosse

Emplacement : Sud-Est de la Nouvelle-Écosse, à 100 kilomètres au sud-ouest de Halifax

Population : 7 944 habitants

La Ville de Bridgewater, reconnue comme le pôle commercial de la Côte sud de la Nouvelle-Écosse, est prête à réaliser en 2009 des projets qui vont du resurfacement de routes à l'amélioration du réseau d'égouts. Les responsables municipaux ont identifié sept initiatives qui pourraient profiter d'un plan de relance économique, dont le remplacement d'un égout sanitaire, la modernisation de l'usine de traitement des eaux usées, la remise en état des routes et la rénovation de l'hôtel de ville.

Coût total des projets d'infrastructures : 4 835 000 \$

Emplois pouvant être créés : 55

INFRASTRUCTURES – FAITS ET CHIFFRES IMPORTANTS

« Les problèmes d'infrastructures font plus que causer des tracas quotidiens; ils menacent réellement la prospérité future de nos municipalités et du pays tout entier.

Jim Flaherty, ministre des Finances, s'adressant à la Whitby Chamber of Commerce, 9 mars 2006

« Il existe aussi un large appui, non seulement à des investissements accrus dans les infrastructures pour relancer l'économie, mais au financement de projets prêts à démarrer et n'exigeant pas des années de planification, d'évaluation environnementale et d'autorisation. Il faut confier de nouveaux fonds aux gouvernements municipaux qui sont toujours prêts à mettre en chantier, mais qui manquent de liquidités. »

Roger Gibbins, Canada West Foundation, *Calgary Herald*, 21 décembre 2008

Le plan d'infrastructures mondial

- L'équipe économique du président désigné Obama prépare un plan de relance de deux ans devant créer 2,5 millions d'emplois. L'estimation des investissements qui pourraient être consacrés à un tel plan se situe entre 500 et 700 milliards de dollars. Les éléments principaux du plan consistent en des investissements dans les routes, les ponts, les écoles, les tunnels, les ports et les infrastructures d'énergie verte.
- En réaction aux signes croissants d'un grave ralentissement économique qui risque d'entraîner des pertes d'emploi et des troubles sociaux, la Chine a dévoilé un important plan de relance. La majeure partie des investissements de 586 milliards annoncés récemment par la Chine ira à la construction de routes, de chemins de fer et d'aéroports.
- En octobre, le premier ministre australien Kevin Rudd a annoncé un plan de relance de 10,1 milliards de dollars australiens comprenant un important programme d'infrastructures. En novembre, il y a ajouté des investissements de 300 millions de dollars australiens destinés presque exclusivement aux infrastructures.
- La Commission européenne prévoit un plan de relance de 130 milliards d'euros (163 milliards US) qui représente un pour cent du PIB des États membres. Une partie de ces nouveaux investissements ira à des projets d'infrastructures.

Les travaux d'infrastructures : un moyen efficace de combattre la récession

- Chaque milliard de dollars investi dans de nouvelles infrastructures crée plus de 11 000 emplois, dont 5 500 nouveaux emplois dans le secteur de la construction, qui montre des signes d'essoufflement.
- L'an dernier, les investissements dans les infrastructures municipales ont fourni du travail à 190 000 Canadiens et représenté 2,1 pour cent du PIB national.
- Chaque dollar injecté dans les infrastructures crée plus d'emplois et stimule davantage l'économie que 2 dollars en réductions de taxes et d'impôts.
- Les investissements dans les infrastructures demeurent dans l'économie canadienne et stimulent la demande pour des matériaux produits au Canada.
- Pour chaque dollar investi, le gouvernement fédéral et les gouvernements provinciaux et territoriaux retirent 35 cents en impôts et taxes de vente supplémentaires ainsi qu'en réductions de dépenses.

Principes de base d'un plan d'action fédéral

1. Accorder la priorité à la création d'emplois

Chaque milliard investi dans de nouvelles infrastructures crée plus de 11 000 emplois – deux fois plus qu'une réduction d'impôts équivalente. Un nombre important de nouveaux projets d'infrastructures doivent démarrer au printemps de 2009 pour faire échec à la récession. L'un des grands objectifs de tout programme d'infrastructures anticyclique doit être la création d'emploi. La création d'emploi doit devenir le principal facteur d'imputabilité.

2. Utiliser le modèle du Fonds de la taxe sur l'essence : rapide, éprouvé et imputable

Le Fonds de la taxe sur l'essence (FTE) est le programme de financement fédéral le plus efficace et le plus efficient parce qu'il permet aux municipalités de s'attaquer rapidement à des priorités d'infrastructures clairement ciblées. Les fonds de ce programme sont distribués en se basant sur le nombre d'habitants. Les municipalités doivent investir ces fonds conformément à des critères d'admissibilité clairs et à des plans d'investissement en capital approuvés par le gouvernement fédéral.

Le FTE comporte des mécanismes de reddition de comptes simples mais rigoureux, approuvés tant par le Conseil du Trésor que par les gouvernements provinciaux et territoriaux et appliqués par les municipalités depuis plusieurs années. Le FTE est efficace et efficient. Il garantit la reddition de comptes sans lourds processus de demandes.

3. Lancer les mises en chantier en 2009

Dans tout projet d'infrastructures, c'est à l'étape de la construction que sont créés la majorité des emplois. Pour contrer un ralentissement économique, il est donc essentiel de lancer les travaux rapidement.

Les programmes fondés sur un processus de demandes, comme Chantiers Canada, financent de grands projets d'infrastructures qui exigent parfois des années de planification. Ces projets sont souvent d'une importance capitale, et ceux qui ont déjà été approuvés par Chantiers Canada doivent être protégés. Cependant, le processus de Chantiers Canada est trop lent et les projets admissibles trop complexes pour réagir à une crise économique qui évolue rapidement.

Les efforts de simplification de Chantiers Canada sont nécessaires et bienvenus, mais le programme ne peut relancer l'économie en 2009. Pour créer rapidement de l'emploi, il faut investir des fonds additionnels importants dans des projets prêts à être mis en chantier, souvent de simples projets d'entretien et de réparation.

Il est plus facile et plus court de planifier des projets de petite et de moyenne envergure. Ils sont souvent semblables à des infrastructures qui existent déjà et n'exigent pas de longs

processus d'évaluation environnementale ou de consultation publique. Ces petits projets, dont le financement est souvent mis de côté, pourraient créer des milliers d'emplois en 2009 et contribuer à réduire l'actuel déficit de 123 milliards des infrastructures municipales.

4. Investir dans le transport collectif et le logement abordable

Les réseaux de transport collectif représentent un mode de transport abordable. Ils contribuent également à réduire les émissions de gaz à effet de serre et la congestion routière. Cependant, les fonds fédéraux réservés au transport collectif par le biais de la Fiducie pour l'infrastructure du transport en commun doivent disparaître en 2009. Il faut maintenir ce financement pour protéger nos investissements dans le transport collectif. En l'augmentant, on pourra créer des emplois dans le secteur de la construction et injecter des fonds dans l'économie. La disparition de ce financement entraînerait une ponction dans l'économie au moment même où le gouvernement fédéral tente de la stimuler.

Sans compter que des milliers de logements sociaux ont un urgent besoin de réparation, de modernisation et d'améliorations éconergétiques. De tels travaux permettraient de créer des emplois dans le secteur de la construction et de stimuler l'économie – tout en aidant les ménages qui ont besoin de ces logements. Le gouvernement fédéral doit accélérer et accroître immédiatement son engagement à renouveler les programmes de logements abordables qui doivent cesser en mars 2009.

5. Ne pas oublier les petites collectivités

Les petites collectivités, qu'elles soient urbaines, rurales ou nordiques, ne doivent pas être oubliées. Il leur faut de nouveaux emplois pour faire face à la récession, et des infrastructures nouvelles et améliorées pour survivre et affronter la concurrence. Il faut donc protéger les fonds de Chantiers Canada réservés aux petites villes, accroître le nombre de projets et accélérer le processus d'examen des demandes. L'augmentation des dépenses d'immobilisations des petits aéroports aidera les municipalités à protéger leurs emplois, à soutenir le tourisme et à maintenir leurs liens avec l'économie nationale. Enfin, le gouvernement fédéral doit tenir sa promesse de fournir l'accès Internet haute vitesse aux municipalités rurales, éloignées et nordiques

Conclusion

Alors que les gouvernements du Canada font face au double défi d'une récession et d'un déficit, les investissements dans les infrastructures offrent une piste de solution d'une efficacité sans égale. Les investissements dans les infrastructures ont un puissant pouvoir stimulant et restent au Canada, y garantissant des emplois et des revenus d'impôts additionnels.

En octobre 2008, une étude de la FCM démontrait qu'un investissement de 1 milliard dans les routes, les ponts et les conduites d'eau crée plus d'emplois et stimule davantage

l'économie que 2 milliards en réduction de taxes et d'impôts. Il a aussi montré que l'investissement des fonds fédéraux déjà affectés aux infrastructures permettrait « d'immuniser » l'économie contre la récession. Le gouvernement fédéral doit maintenant prendre des mesures pour que les fonds destinés aux infrastructures soient distribués rapidement sur le terrain.

Il faut agir avec diligence. Dans tout projet d'infrastructures, c'est l'étape de la construction qui crée la majorité des emplois. Pour contrer un ralentissement économique, il est donc essentiel de lancer les travaux dès le printemps prochain. Un nombre considérable de nouveaux projets d'infrastructures doivent être entrepris pendant la saison de construction de 2009 afin de combattre la récession.

Nos recommandations sont prudentes, concrètes et respectent le cadre financier, mais elles exigent une action rapide. Les membres de la FCM sont prêts à aider le gouvernement du Canada à donner à l'économie le coup de fouet requis pour reconstruire nos infrastructures tout en aidant les Canadiens à traverser la récession.

Ensemble, nous pouvons créer des dizaines de milliers d'emplois à travers le pays en améliorant le transport collectif, la qualité de l'eau potable, le traitement des eaux usées et l'état des routes et des ponts.

FCM List of 2009 "Shovel Ready" Municipal Infrastructure Projects (updated)

#	Municipality	Prov./Terr	Pop. (2006)	Project Name	Project Category	Estimated Project Cost	Est. jobs created
1	Regional Municipality of Durham	ON	561,258	Ajax Water Supply Plant SCADA system	Water and wastewater	\$5,400,000	62
2	Regional Municipality of Durham	ON		Oshawa Water Supply Plant Upgrades	Water and wastewater	\$14,000,000	160
3	Regional Municipality of Durham	ON		Zone 1 Feedermain on Brock Rd.	Water and wastewater	\$9,725,000	111
4	Regional Municipality of Durham	ON		Zone 2 Brock Rd. Pumping Station (2.4 MIGD)	Water and wastewater	\$2,800,000	32
5	Regional Municipality of Durham	ON		Construction of Bonner Park Well and Pumphouse.	Water and wastewater	\$1,400,000	16
6	Regional Municipality of Durham	ON		Replacement of the watermain on Lincoln Ave.	Water and wastewater	\$720,000	8
7	Regional Municipality of Durham	ON		Intake crib chlorine line replacement at the water supply plants	Water and wastewater	\$750,000	9
8	Regional Municipality of Durham	ON		Replacement of the watermain on Farewell St.	Water and wastewater	\$686,000	8
9	Regional Municipality of Durham	ON		Replacement of the watermain on Kings Cres.	Water and wastewater	\$922,000	11
10	Regional Municipality of Durham	ON		Replacement of the watermain on Hopkins St.	Water and wastewater	\$410,000	5
11	Regional Municipality of Durham	ON		Replacement of the watermain on Burns St.	Water and wastewater	\$361,000	4
12	Regional Municipality of Durham	ON		Cemetery Rd. from Toronto St. to 600m northerly, Uxbridge	Water and wastewater	\$484,000	6
13	Regional Municipality of Durham	ON		Replacement of polybutylene service connection in various locations.	Water and wastewater	\$140,000,000	1,598
14	Regional Municipality of Durham	ON		Duffin Creek Water Pollution Control Plant Expansion	Water and wastewater	\$82,240,000	939
15	Regional Municipality of Durham	ON		Duffin Creek Water Pollution Control Plant Heat Exchanger No. 2 Replacement	Water and wastewater	\$685,000	8
16	Regional Municipality of Durham	ON		Duffin Creek Water Pollution Control Plant -Phosphorous Removal Upgrades	Water and wastewater	\$1,785,000	20
17	Regional Municipality of Durham	ON		Duffin Creek Water Pollution Control Plant SCADA Replacement	Water and wastewater	\$420,000	5
18	Regional Municipality of Durham	ON		Harbour Street Sanitary Sewerage Pumping Station – New pump required	Water and wastewater	\$300,000	3
19	Regional Municipality of Durham	ON		Replacement of the watermain on Kings Cres. from Harwood Ave. to Burcher Rd., Ajax (Phase 1 and	Water and wastewater	\$890,000	10
20	Regional Municipality of Durham	ON		Replacement of the watermain on Farewell St. from Marwood Dr. to Harbour Rd. and from Wentworth	Water and wastewater	\$285,000	3
21	Regional Municipality of Durham	ON		Bridge Replacement, Reg. Rd. 15	Roads and bridges	\$1,900,000	22
22	Regional Municipality of Durham	ON		Bridge Rehabilitation, Wentworth Street Bridge	Roads and bridges	\$1,100,000	13
23	Regional Municipality of Durham	ON		Thickson Road (Rossland Road to Taunton Road), Whitby	Roads and bridges	\$7,000,000	80
24	Regional Municipality of Durham	ON		Simcoe Street (Niagara Drive to Conlin Road), Oshawa	Roads and bridges	\$4,200,000	48
25	Regional Municipality of Durham	ON		Guiderail Upgrades	Roads and bridges	\$18,400,000	210
26	Regional Municipality of Durham	ON		Critical Road Rehabilitation Needs	Roads and bridges	\$80,000,000	913
27	Municipality of Huron-East	ON	9,310	Crombie Street	Roads and bridges	\$600,000	7
28	Municipality of Huron-East	ON		Egmondville Sewers	Water and wastewater	\$4,335,470	49
29	Municipality of Huron-East	ON		Seaforth Sewer Plant Expansion	Water and wastewater	\$1,200,000	14
30	Municipality of Huron-East	ON		Vanastra RCA Base Service Update	Roads and bridges	\$2,000,000	23
31	Rural Municipality of Alexander	MB	2,978	Hillside Point Road	Roads and bridges	\$54,116	1
32	Rural Municipality of Alexander	MB		Lester Beach Road	Roads and bridges	\$157,427	2
33	Rural Municipality of Alexander	MB		First Avenue	Roads and bridges	\$29,518	0
34	Rural Municipality of Alexander	MB		Lamereux Lane	Roads and bridges	\$29,518	0
35	Rural Municipality of Alexander	MB		Louis Riel Drive	Roads and bridges	\$29,518	0
36	Rural Municipality of Alexander	MB		Bouvier Trail	Roads and bridges	\$60,615	1
37	City of Surrey	BC	394,976	Bridgeview Area Sewer Replacement	Water and wastewater	\$5,000,000	57
38	City of Surrey	BC		Water Meter Installations	Water and wastewater	\$4,000,000	46
39	City of Surrey	BC		Fraser River Diking/ Flood Protection	Water and wastewater	\$7,250,000	83
40	City of Surrey	BC		Robson Ravine Diversion Sewer	Water and wastewater	\$4,000,000	46
41	City of Surrey	BC		Robson Park Storm water Management System	Water and wastewater	\$5,500,000	63
42	City of Surrey	BC		160 Street Improvements, from 96 Avenue to 103 Avenue (1.4 km)	Roads and bridges	\$11,250,000	128
43	City of Surrey	BC		96 Avenue Improvements, from 168 Street to 176 Street (1.6 km)	Roads and bridges	\$12,000,000	137

FCM List of 2009 "Shovel Ready" Municipal Infrastructure Projects (updated)

#	Municipality	Prov./Terr	Pop. (2006)	Project Name	Project Category	Estimated Project Cost	Est. jobs created
651	City of St. John's	NL		Walsh's Lane - Water and Sewer Installation	Water and Sewer	\$162,000	2
652	City of St. John's	NL		Main Road - Street Upgrading (Doyles Rd. to Keith Dr.)	Road Rehabilitation	\$3,000,000	34
653	City of St. John's	NL		Pine Bud Place - Sanitary Sewer Diversion	Water and Sewer	\$1,320,000	15
654	City of St. John's	NL		Kelly's Brook Trunk Storm Sewer (Newtown Rd. to Grave St.)	Water and Sewer	\$1,755,000	20
655	City of St. John's	NL		Elizabeth Ave - Flood Remediation	Water and Sewer	\$1,155,000	13
656	City of St. John's	NL		Waterford Bridge Road - Retaining Wall	Road Rehabilitation	\$800,000	9
657	City of St. John's	NL		Midstream Place	Water and Sewer	\$275,000	3
658	City of St. John's	NL		Southern Shore Highway - Resurfacing	Road Rehabilitation	\$1,300,000	15
659	City of St. John's	NL		Kenmount Road - Trunk Storm Sewer - Phase 1	Water and Sewer	\$6,100,000	70
660	City of St. John's	NL		West End Fire Station	Buildings	\$2,700,000	31
661	City of St. John's	NL		Mews Centre Accessibility Lift	Road Rehabilitation	\$180,000	2
662	City of St. John's	NL		Municipal Depot C Block Extension	Buildings	\$1,500,000	17
663	City of St. John's	NL		Municipal Depot D Block	Buildings	\$1,000,000	11
664	City of St. John's	NL		Bannerman Park Swimming Pool Filter Replacement	Parks and Recreation	\$100,000	1
665	City of St. John's	NL		Ayre Athletic Grounds maint/community building	Parks and Recreation	\$350,000	4
666	Charlottetown, Cornwall & Stratford	PEI	43,934	Transit Vehicle Fleet Expansion	Public Transit	\$1,275,000	15
667	Charlottetown, Cornwall & Stratford	PEI		Bus Shelter Installation	Public Transit	\$400,000	5
668	Charlottetown, Cornwall & Stratford	PEI		Regional GPS Vehicle Location System	Public Transit	\$100,000	1
669	Ville de Bromont	QC	6,049	Réfection des stations de pompage sanitaire: PP1,PP1A et PP2	Water and wastewater	\$1,200,000	14
670	Ville de Bromont	QC		Réfection de la rue Shefford	Roads and bridges	\$8,000,000	91
671	Ville de Bromont	QC		Travaux majeurs de réfection de pavage dans la municipalité	Roads and bridges	\$510,000	6
672	Ville de Bromont	QC		Réfection des ateliers municipaux	Buildings	\$300,000	3
673	Ville de Bromont	QC		Remise à niveaux des chemins de gravier	Roads and bridges	\$200,000	2
674	Ville de Bromont	QC		Reprofilage de fossés	Roads and bridges	\$75,000	1
675	Ville de Bromont	QC		Réfection des rues Gaspé et Bagot	Roads and bridges	\$655,000	7
676	Ville de Bromont	QC		Mise en conformité d'équipements en Santé et Sécurité au travail	Other	\$90,000	1
677	Metro Vancouver	BC	2,300,000	Regional organics processing facilities	Solid waste	\$40,000,000	457
678	Metro Vancouver	BC		Waste-to-Energy Facility NOx Reduction Project	Solid waste	\$40,000,000	457
679	Metro Vancouver	BC		Waste-to-Energy Facility Feedwater Treatment Plant Upgrade	Solid waste	\$1,050,000	12
680	Metro Vancouver	BC		Waste-to-Energy Facility Seismic Upgrades	Solid waste	\$6,000,000	68
681	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant - project definition report	Water and wastewater	\$2,500,000	29
682	Metro Vancouver	BC		Coquitlam - UV Disinfection	Water and wastewater	\$110,000,000	1,256
683	Metro Vancouver	BC		Barnston Maple Ridge Pump Station	Water and wastewater	\$23,800,000	272
684	Metro Vancouver	BC		16th Ave Main No. 2	Water and wastewater	\$6,700,000	76
685	Metro Vancouver	BC		25th Ave. Main - No.2 Phase 3 & 4	Water and wastewater	\$4,500,000	51
686	Metro Vancouver	BC		Angus Drive Main Scour Protection	Water and wastewater	\$1,425,000	16
687	Metro Vancouver	BC		Cleveland Dam Elevator Replacement	Water and wastewater	\$7,300,000	83
688	Metro Vancouver	BC		Douglas Road Main No. 2 - Royal Oak Pre-Build	Water and wastewater	\$2,000,000	23
689	Metro Vancouver	BC		Douglas Road Main No. 2 - 13th Ave Sect	Water and wastewater	\$16,700,000	191
690	Metro Vancouver	BC		Capilano Main No. 5 Seismic Remediation Construction	Water and wastewater	\$1,400,000	16
691	Metro Vancouver	BC		Port Mann No. 2 Fraser River Crossing (Construction)	Water and wastewater	\$199,000,000	2,272
692	Metro Vancouver	BC		Second Narrow Crossing (Tunnel) - Design	Water and wastewater	\$4,500,000	51
693	Metro Vancouver	BC		Newton Reservoir - Seismic Upgrade	Water and wastewater	\$3,300,000	38
694	Metro Vancouver	BC		Mathers Avenue Capilano River Crossing Replacement - Prelim Design	Water and wastewater	\$500,000	6
695	Metro Vancouver	BC		Port Moody Connector Meter	Water and wastewater	\$400,000	5
696	Metro Vancouver	BC		Central Park Distribution System Optimization	Water and wastewater	\$12,000,000	137
697	Metro Vancouver	BC		South Surrey Main Structural Review and Condition Analysis	Water and wastewater	\$249,887	3
698	Metro Vancouver	BC		FSA - Annacis Island Stage 5 - Tricking Filter Pump	Water and wastewater	\$2,600,000	30
699	Metro Vancouver	BC		FSA - N Nicomekl Trunk Sewer No. 2 - Construction	Water and wastewater	\$14,000,000	160
700	Metro Vancouver	BC		FSA - Sapperton Pump Station Replacement	Water and wastewater	\$30,000,000	342
701	Metro Vancouver	BC		FSA - South Surrey Interceptor - King George Section	Water and wastewater	\$27,000,000	308
702	Metro Vancouver	BC		VSA - Iona - CEPT System Replacement	Water and wastewater	\$7,000,000	80
703	Metro Vancouver	BC		VSA - Iona - MCC/Power Distribution Assess / Replace 2009	Water and wastewater	\$1,375,000	16
704	Metro Vancouver	BC		NSA - Lions Gate Power Dist MCC Replace/Transformers 2009	Water and wastewater	\$830,000	9
705	Metro Vancouver	BC		NSA - Lions Gate-Digester #4 Refurbishment Construction	Water and wastewater	\$7,360,000	84
706	Metro Vancouver	BC		FSA - Annacis WWTP - Disinfection System - Construction	Water and wastewater	\$13,000,000	148
707	Metro Vancouver	BC		FSA - Crescent Beach FM Scour Protection	Water and wastewater	\$638,000	7
708	Metro Vancouver	BC		FSA - Marshend PS Rehab Construction	Water and wastewater	\$7,000,000	80
709	Metro Vancouver	BC		FSA - South Surrey Interceptor Rehab.	Water and wastewater	\$3,200,000	37
710	Metro Vancouver	BC		VSA - Highbury Interceptor North Arm Crossing - Upgrade of Siphons	Water and wastewater	\$12,000,000	137
711	Metro Vancouver	BC		VSA - Jervis Forcemain - Planetarium Section Replacement - Construction	Water and wastewater	\$9,000,000	103
712	Metro Vancouver	BC		NSA - LGWWTP Sodium Bisulfate System	Water and wastewater	\$1,410,000	16
713	Metro Vancouver	BC		NSA - Lions Gate WWTP Third Influent Screen	Water and wastewater	\$820,000	9
714	Metro Vancouver	BC		FSA - Coquitlam Interceptor Repair Lougheed Section	Water and wastewater	\$3,800,000	43
715	Metro Vancouver	BC		FSA - Annacis Stage 5 Expansion Phase 1	Water and wastewater	\$133,705,600	1,526

FCM List of 2009 "Shovel Ready" Municipal Infrastructure Projects (updated)

#	Municipality	Prov./Terr	Pop. (2006)	Project Name	Project Category	Estimated Project Cost	Est. jobs created
716	Metro Vancouver	BC		VSA - Jervis Force main Extension to 8th Avenue Interceptor	Water and wastewater	\$9,000,000	103
717	Metro Vancouver	BC		NSA - Lynn Creek SSO Treatment - Design	Water and wastewater	\$750,000	9
718	Metro Vancouver	BC		FSA - Cloverdale SSO Treatment - Pre-Design	Water and wastewater	\$150,000	2
719	Metro Vancouver	BC		FSA - Katzie SSO Treatment - Pre-Design	Water and wastewater	\$150,000	2
720	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Cogeneration Heat Recovery Exchanger Repair	Water and wastewater	\$150,000	2
721	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Digester Gas Compressors Replacement	Water and wastewater	\$800,000	9
722	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Digester Valve Replacement	Water and wastewater	\$200,000	2
723	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Gravity Thickener Corrosion Repair	Water and wastewater	\$250,000	3
724	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant North Cogeneration System Replacement	Water and wastewater	\$750,000	9
725	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Primary Aeration Tank Corrosion Repair	Water and wastewater	\$1,500,000	17
726	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant SCT Diffuser Replacement	Water and wastewater	\$200,000	2
727	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Secondary Clarifier Corrosion Repair	Water and wastewater	\$200,000	2
728	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Trickling Filter Pump Vibration Reduction	Water and wastewater	\$800,000	9
729	Metro Vancouver	BC		Annacis Island Wastewater Treatment Plant Trickling Filter Domes Refurbishment	Water and wastewater	\$240,000	3
730	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Bar Screen Refurbishment	Water and wastewater	\$200,000	2
731	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Influent Pump Station VFD Replacement	Water and wastewater	\$750,000	9
732	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Primary Clarifiers Roof Removal	Water and wastewater	\$500,000	6
733	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Primary Electrical Feeder Replacement	Water and wastewater	\$250,000	3
734	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Roof Remediation	Water and wastewater	\$150,000	2
735	Metro Vancouver	BC		Iona Island Wastewater Treatment Plant Ventilation System Upgrades	Water and wastewater	\$1,500,000	17
736	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant Administration Building and Roof Remediation	Water and wastewater	\$600,000	7
737	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant Diesel Storage Tank Remediation	Water and wastewater	\$120,000	1
738	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant Gravity Thickener Settlement Repair	Water and wastewater	\$500,000	6
739	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant Boiler Replacement	Water and wastewater	\$250,000	3
740	Metro Vancouver	BC		Lions Gate Wastewater Treatment Plant Gas Compressor Replacement	Water and wastewater	\$800,000	9
741	Metro Vancouver	BC		Lulu Island Wastewater Treatment Plant Roof Remediation	Water and wastewater	\$50,000	1
742	Metro Vancouver	BC		Northwest Langley Wastewater Treatment Plant Roof Remediation	Water and wastewater	\$150,000	2
743	Metro Vancouver	BC		Biofilter Media Replacement	Water and wastewater	\$350,000	4
744	Metro Vancouver	BC		Annacis - Biofilter Media Replacement	Water and wastewater	\$450,000	5
745	Metro Vancouver	BC		Annacis - Digested Sludge Storage Tank Cleaning & Liner	Water and wastewater	\$3,180,000	36
746	Metro Vancouver	BC		Annacis - Co-digestion System - pilot plant	Water and wastewater	\$480,000	5
747	Metro Vancouver	BC		Annacis - Reclaim water system upgrade using membrane technology (Design phase)	Water and wastewater	\$250,000	3
748	Metro Vancouver	BC		Iona - Old Diesel Tank Removal	Water and wastewater	\$50,000	1
749	Metro Vancouver	BC		Iona - Effluent Conduit Insulation Test Sections (Assessment)	Water and wastewater	\$165,000	2
750	Metro Vancouver	BC		Iona - Ventilation + Gas Detection (Assessment)	Water and wastewater	\$60,000	1
751	Metro Vancouver	BC		Iona - Thickened Sludge Grinders (Assessment)	Water and wastewater	\$110,000	1
752	Metro Vancouver	BC		Lions Gate - C2 Water Offset System (Design phase)	Water and wastewater	\$100,000	1
753	Metro Vancouver	BC		Lions Gate - Chlorine Contact Tank Reclamation	Water and wastewater	\$100,000	1
754	Metro Vancouver	BC		Lions Gate - Digester Gas Drying	Water and wastewater	\$100,000	1
755	Metro Vancouver	BC		Lions Gate - Effluent Dechlorination System (Assessment and Evaluation)	Water and wastewater	\$700,000	8
756	Metro Vancouver	BC		Lions Gate - HVAC Upgrade - Design & Construct	Water and wastewater	\$700,000	8
757	Metro Vancouver	BC		Lulu - SHS Disinfection System Upgrade	Water and wastewater	\$1,300,000	15
758	Metro Vancouver	BC		Annacis WWTP Wastewater Research Centre (Sustainability Academy)	Water and wastewater	\$9,000,000	103
759	Metro Vancouver	BC		Struvite extraction facility at the Lulu WWTP	Water and wastewater	\$1,500,000	17
760	Metro Vancouver	BC		Beach Yard Water Control Valve Replacement	Water and wastewater	\$150,000	2
761	Metro Vancouver	BC		Water system pressure gauge elevation verification	Water and wastewater	\$358,000	4
762	Metro Vancouver	BC		Conversion of water operation drawings to metric units	Water and wastewater	\$500,000	6
763	Metro Vancouver	BC		Side stream injection for Pitt River and Cape Horn secondary disinfection sites	Water and wastewater	\$450,000	5
764	Metro Vancouver	BC		Coquitlam Ozone Plant replace valve operators	Water and wastewater	\$80,000	1
765	Metro Vancouver	BC		Coquitlam Cross Over Chamber Residual Analyser	Water and wastewater	\$100,000	1
766	Metro Vancouver	BC		Central Park Pressure Metering Instrumentation upgrade	Water and wastewater	\$100,000	1
767	Metro Vancouver	BC		River Road Flow and Pressure Instrumentation upgrade	Water and wastewater	\$350,000	4
768	Metro Vancouver	BC		Grandview/ Sunnyside main Flow and Pressure Instrumentation upgrade	Water and wastewater	\$250,000	3
769	Metro Vancouver	BC		Delta and Albert Instrumentation upgrade	Water and wastewater	\$150,000	2
770	Metro Vancouver	BC		Devon Gardens (delta) instrumentation upgrade	Water and wastewater	\$150,000	2
771	Metro Vancouver	BC		5 Olympic water quality monitoring stations	Water and wastewater	\$360,000	4
772	Metro Vancouver	BC		Decommission abandoned water mains 44AM, BO2, BO3, DRM1	Water and wastewater	\$4,000,000	46
773	Metro Vancouver	BC		Drain Line Rehabilitation	Water and wastewater	\$7,000,000	80
774	Metro Vancouver	BC		Capilano reservoir turbidity buoy replacement	Water and wastewater	\$100,000	1
775	Metro Vancouver	BC		Security upgrades at 8 secondary disinfection stations	Water and wastewater	\$250,000	3
776	Metro Vancouver	BC		Coquitlam water treatment plant equipment enclosures	Water and wastewater	\$250,000	3
777	Metro Vancouver	BC		PVC pipe replacement at 3 secondary disinfection stations	Water and wastewater	\$96,000	1
778	Metro Vancouver	BC		Coquitlam water treatment plant access road paving	Water and wastewater	\$500,000	6
779	Metro Vancouver	BC		SCFP Entrance and Guard house	Water and wastewater	\$625,000	7
780	Metro Vancouver	BC		Coquitlam Chlorine gas conversion to Onsite generation	Water and wastewater	\$10,000,000	114

FCM List of 2009 "Shovel Ready" Municipal Infrastructure Projects (updated)

#	Municipality	Prov./Terr	Pop. (2006)	Project Name	Project Category	Estimated Project Cost	Est. jobs created
781	Metro Vancouver	BC		New Coquitlam Soda Ash Silos	Water and wastewater	\$5,000,000	57
782	Metro Vancouver	BC		Newton secondary disinfection upgrades	Water and wastewater	\$140,000	2
783	Metro Vancouver	BC		Reservoir inlet valve replacement - Kersland, Central Park	Water and wastewater	\$200,000	2
784	Metro Vancouver	BC		Westridge PS #1 emergency power supply	Water and wastewater	\$500,000	6
785	Metro Vancouver	BC		Westburnco PS emergency power supply	Water and wastewater	\$500,000	6
786	Metro Vancouver	BC		South Surrey Odour Control Facility	Water and wastewater	\$300,000	3
787	Metro Vancouver	BC		Seymour Falls Dam - Submerged Debris Removal	Water and wastewater	\$500,000	6
788	Metro Vancouver	BC		Cleveland Dam - Diversion Tummel Inspection	Water and wastewater	\$500,000	6
789	Metro Vancouver	BC		Sewer Access Road	Water and wastewater	\$250,000	3
790	Metro Vancouver	BC		Aerial Crossings Coating Replacement	Water and wastewater	\$500,000	6
791	Metro Vancouver	BC		Beach Yard Fencing	Water and wastewater	\$250,000	3
792	Metro Vancouver	BC		Water Reservoir Cleaning	Water and wastewater	\$250,000	3
793	Metro Vancouver	BC		Coquitlam Lake Boat Ramps	Water and wastewater	\$200,000	2
794	Metro Vancouver	BC		Westbay Piezometric Drill Hole	Water and wastewater	\$250,000	3
795	Metro Vancouver	BC		Coquitlam Interceptor Improvement	Water and wastewater	\$5,000,000	57
796	Metro Vancouver	BC		North Surrey Interceptor Manhole Improvements	Water and wastewater	\$400,000	5
797	Metro Vancouver	BC		Blundell Trunk Sewer - Manhole Improvements	Water and wastewater	\$75,000	1
798	Metro Vancouver	BC		Port Coquitlam Water Supply Improvements	Water and wastewater	\$1,000,000	11
799	Metro Vancouver	BC		Central Park and Cape Horn Pump Stations Improvements	Water and wastewater	\$6,000,000	68
800	Metro Vancouver	BC		Queensborough Pump Station Improvement	Water and wastewater	\$5,000,000	57
801	Metro Vancouver	BC		Port Moody Main - Stream Enhancements	Water and wastewater	\$500,000	6
802	Metro Vancouver	BC		Surrey Supply Improvements	Water and wastewater	\$2,000,000	23
803	Metro Vancouver	BC		Hellings Tank Improvement	Water and wastewater	\$50,000	1
804	Metro Vancouver	BC		Little Mountain Reservoir Improvement	Water and wastewater	\$50,000	1
805	Metro Vancouver	BC		River Road - East and West Mains Improvements	Water and wastewater	\$800,000	9
806	Metro Vancouver	BC		Burnaby Mountain Pump Station Improvement	Water and wastewater	\$250,000	3
807	Metro Vancouver	BC		Central Park Pump Station Improvements	Water and wastewater	\$250,000	3
808	Metro Vancouver	BC		Water main Meter Installation	Water and wastewater	\$500,000	6
809	Metro Vancouver	BC		Seymour Dam Safety Early-Warning ADAS System	Water and wastewater	\$100,000	1
810	Metro Vancouver	BC		Sewer Meter Installations and Upgrade	Water and wastewater	\$1,700,000	19
811	Metro Vancouver	BC		Serpentine River Crossing Scour Protection	Water and wastewater	\$500,000	6
812	Metro Vancouver	BC		Kersland and Central Park Reservoir Non-Cavitation Fill Valves	Water and wastewater	\$700,000	8
813	Metro Vancouver	BC		Tilbury Main Fraser River Crossing scour protection	Water and wastewater	\$250,000	3
814	Metro Vancouver	BC		Water Chambers Stairway Access on WM 2 & 5 and through out A1, A2, A3, A4.	Water and wastewater	\$2,000,000	23
815	Metro Vancouver	BC		Cleveland Dam Screen Component Replacement	Water and wastewater	\$100,000	1
816	Metro Vancouver	BC		Seymour Dam Electrical System Replacements	Water and wastewater	\$275,000	3
817	Metro Vancouver	BC		Fraser Sewerage Area and Water Distribution System Pump Refurbishments	Water and wastewater	\$420,000	5
818	Metro Vancouver	BC		Fraser Sewerage Area and Water Distribution System Electrical Refurbishments	Water and wastewater	\$1,950,000	22
819	Metro Vancouver	BC		Fraser Sewerage Area Meter Replacement	Water and wastewater	\$85,000	1
820	Metro Vancouver	BC		Fraser, Vancouver and North Shore Sewerage Areas Gas Detector Upgrade Project	Water and wastewater	\$400,000	5
821	Metro Vancouver	BC		Beach Yard Building Repair	Water and wastewater	\$125,000	1
822	Metro Vancouver	BC		Lake City Operations Center Egress Stair Corrosion Remediation	Water and wastewater	\$125,000	1
823	Metro Vancouver	BC		Critical Watershed Mainline Road Rehabilitation	Water and wastewater	\$600,000	7
824	Metro Vancouver	BC		Replace existing, inadequate water education centre for students	Water and wastewater	\$500,000	6
825	Metro Vancouver	BC		Replace Dec-Jan storm damage utility work buildings and sheds	Water and wastewater	\$180,000	2
826	Metro Vancouver	BC		Watershed Bridge Replacements (Twin Bridges, Paton Creek)	Water and wastewater	\$900,000	10
827	Metro Vancouver	BC		Removal of aging culverts: replace with fish friendly structures	Water and wastewater	\$230,000	3
828	Metro Vancouver	BC		Design and installation of new snow removal equipment storage sheds	Water and wastewater	\$50,000	1
829	Metro Vancouver	BC		Watershed Security Improvements (gates, fencing) including 2010 prep	Water and wastewater	\$250,000	3
830	Metro Vancouver	BC		Increase work space at watershed operations facility (design & construction)	Water and wastewater	\$470,000	5
831	Metro Vancouver	BC		Cariboo Dam Improvements (electrical, mechanical, instrumental)	Water and wastewater	\$750,000	9
832	Metro Vancouver	BC		Chubb Creek channel widening to improve conveyance through Burnaby	Water and wastewater	\$200,000	2
833	Ville de Montréal	QC	1,620,693	Remise en état d'aré纳斯	Parks and Recreation	\$50,000,000	571
834	Ville de Montréal	QC		Remise en état de piscines extérieures	Parks and Recreation	\$10,000,000	114
835	Ville de Montréal	QC		Remise en état de pataugeoires	Parks and Recreation	\$12,000,000	137
836	Ville de Montréal	QC		Remise en état de pavillons des baigneurs	Parks and Recreation	\$11,000,000	126
837	Ville de Montréal	QC		Rénovation et construction de bibliothèques	Parks and Recreation	\$35,000,000	400
838	Ville de Montréal	QC		Rénovation et construction d'installations sportives	Parks and Recreation	\$184,000,000	2101
839	Ville de Montréal	QC		Rénovation d'immeubles publics	Buildings	\$33,000,000	377
840	Ville de Montréal	QC		Restauration et réaménagement de bâtiments institutionnels et de places publiques	Buildings	\$68,000,000	776
841	Ville de Montréal	QC		Réalisation de grands projets structurants	Other	\$84,000,000	959
842	Ville de Montréal	QC		Bonification des programmes de rénovation résidentielle	Public Housing	\$15,000,000	171
843	Ville de Montréal	QC		Modernisation et réaménagement de parcs	Parks and Recreation	\$187,000,000	2135
844	Ville de Montréal	QC		Réfection, mise aux normes, construction du Parc Jean Drapeau	Parks and Recreation	\$163,000,000	1861
845	Ville de Montréal	QC		Muséums Nature : rénovation, réaménagement, renouvellement des expositions des 4 muséums	Parks and Recreation	\$80,000,000	913

FCM List of 2009 "Shovel Ready" Municipal Infrastructure Projects (updated)

#	Municipality	Prov./Terr	Pop. (2006)	Project Name	Project Category	Estimated Project Cost	Est. jobs created
846	Ville de Montréal	QC		Mise en valeur et agrandissement de Pointe-à-Callières	Parks and Recreation	\$60,000,000	685
847	Ville de Montréal	QC		cyclables	Road Rehabilitation	\$172,000,000	1964
848	Ville de Montréal	QC		Centre de compostage et de réemploi	Solid Waste	\$12,000,000	137
849	Regional Municipality of Waterloo	ON	478,121	Regional Road 1 (Waterloo Street – Wilmot)	Roads and bridges	\$3,500,000	40
850	Regional Municipality of Waterloo	ON		Upgrade Disinfection at Waterloo Wastewater Treatment Plant	Water and wastewater	\$15,000,000	171
851	Regional Municipality of Waterloo	ON		Upgrade Disinfection at Kitchener Wastewater Treatment Plant	Water and wastewater	\$25,000,000	285
852	Regional Municipality of Waterloo	ON		Upgrade Middleton Water Treatment Plant – Cambridge	Water and wastewater	\$25,000,000	285
853	Regional Municipality of Waterloo	ON		Regional Road 6 (Queen Street – Kitchener)	Roads and bridges	\$2,500,000	29
854	Regional Municipality of Waterloo	ON		Regional Road 5 (Manser Road – Wellesley)	Roads and bridges	\$3,700,000	42
855	Regional Municipality of Waterloo	ON		Regional Road 9 (Erb Street – Waterloo)	Roads and bridges	\$3,400,000	39
856	Regional Municipality of Waterloo	ON		Affordable Housing Upgrades	Public Housing	\$12,000,000	137
857	Regional Municipality of Waterloo	ON		Regional Road 42 (George Street – Cambridge)	Roads and bridges	\$3,800,000	43
